Moriches, NY

98141 › LARGE ORGANIC SHIITAKE MUSHROOMS › 3LB

## ABOUT THE FARM:

*With over 25 years experience in the mushroom industry, the Lin Family purchased the vacant 38-acre farm in 2014 with the vision of creating long island's only premium organic mushroom farm. RA's owners have taken great care to maintain the natural beauty of the property, and spent the last three years regenerating and restoring the land.*

*RA's Farm is currently the only mushroom farm in the United States producing its own organic mushroom logs. We sustainably source local hard wood that is free of chemical treatment and contaminants, and carefully grind and mix the wood chips with the necessary organic nutrients to produce our 100% Certified Organic Shiitake Mushroom Logs. Each log is then aged and cured for three months before it goes into one of our 8 climate-controlled mushroom houses. The result is a Certified Organic Shiitake Mushroom that is meatier and more flavorful than any other shiitake on the market.*
