

NOVEMBER 2015

We LOVE to be part of your success!

Grapes & Greens recently brought in wines from Bava, a family owned business located in Piedmont, Italy. We're so passionate about this winery that John King made the trip to Italy to visit Bava and personally tour the vineyards (*It's a hard job, but somebody has to do it!*)
Now Grapes & Greens is importing all of Bava's wines.

We recently kicked off this new line with a wine dinner at Franina's and invited several of our customers. Since the dinner, we've had customers book wine dinners featuring Bava at their locations.

Last Sunday from 1-4, the Gemelli family hosted a wine dinner featuring Bava. **Despite the beautiful weather, sports, etc, they got 90 people to attend and pay \$95 per person too!** The Grapes & Greens team was there to talk about Bava and it's wines.

We're in this together-
let's make things happen!
