

*W*estbrook Farms . . . offers it's customers the finest quality in fresh fruit and vegetables from around the world. Since its' inception in 1989, Westbrook Farms has made great strides and now ranks among the leaders in the industry.

Our growth in this market has been accomplished by listening to our customers and addressing their wants and needs. Our food service consultants will help you plan your menu by offering a current market review. Our produce hotline is always available, and our "On Line" Bulletin Board keeps you informed up to the minute!

Our procurement programs in Salinas, Los Angeles, Miami and Holtsville are both customized and responsive. We buy to customer specifications and monitor and maintain quality control from the fields and orchards to your tables. The quality assurance process is multifaceted with an emphasis upon food safety. To insure that this process is followed we monitor it every step of the way and unconditionally guarantee your satisfaction.
